

CALENDAR OF DEEDS AND OTHER PAPERS IN THE SOCIETY'S LIBRARY (SCD)

(Updated December 2022)

From the 1970s onwards, the Society has received various property deeds and legal papers relating to St Albans (and some from the district) from both individuals and firms of solicitors. It represents an important collection for those studying the history of the city from the sixteenth century onwards.

The following catalogue has been produced by Susan Bellamy and Jon Mein and is the first time the collection has been fully listed. We anticipate that the data will be transferred to our online library catalogue in due course.

The collection can be seen at the Society's Library. Please do contact us if you have questions:

SAHAAS Sundry documents from the borough records etc of St Albans

In 1983, the Society's members were alarmed by the wanton destruction of a number of historic documents. This occurred because a local firm required storage space. Subsequently the Society appealed to business organisations likely to hold such material, to donate it for research purposes. The generous response resulted in the collection of 44 boxes of deeds and other documents numbering some 1,500 - 2,000 items dating from the second half of the 16th century to the late 19th. Most of this material was sent to the Hertfordshire County Record Office (now Hertfordshire Archives and Local Studies), but a small proportion concerning the ancient Borough of St Albans has been retained and is now housed in the Society's library. These local documents are now fully listed in the enclosed schedule, building on the earlier listing by the late David Dean, a Past President of the Society.
